Becoming #GreaterMe at RP

At Republic Polytechnic, we believe in your potential for success and are dedicated to helping you unlock it. We provide a dynamic environment where you can explore your passions, grow, and discover your purpose. Your journey will be one of self-discovery, empowerment, and meaningful progress toward your goals.

The journey to becoming a purposeful game-changer begins at RP!

Greater Purpose

Education is more than gaining knowledge; it's about discovering and fulfilling your greater purpose in life.

Greater Possibilities

Unlock your potential to shape your possibilities and achieve success in life.

Greater Impact

Impact goes beyond individual achievements; it's about making a meaningful difference and creating value for Singapore and the world.

At RP, we nurture

Articulate Self-Starters

Become a skilled communicator who develops unique solutions to challenges.

Passionate Community Builders

Care deeply about those around you and create a positive impact in your community.

Purposeful Game-Changers

Embrace an enterprising spirit, turning innovative ideas into reality. Together, these qualities will equip you to make a meaningful difference in the world.

Scan to learn more

Join us at RP on your journey of discovering your purpose and being intentional in your pursuit of success — not just material success, but becoming a better version of yourself in the years ahead.

Your #GreaterMe journey begins here ▶

Connect & Collaborate

Learn beyond the classroom through internships, overseas trips, and CCAs. Build leadership skills, explore your passions, and grow with others.

Ignite & Discover

Find out what drives you. Explore your interests, passions and beliefs. With flexible learning pathways, you can shape your studies to match your goals.

Grow & Transform

Know your strengths, work on your gaps, and grow as a person. Learn with peers, mentors and industry pros. Together, you will go further.

Apply & Reflect

Put your learning into action. With your mentor's support, reflect on your experiences, Design Your Life and shape your Odyssey Plan – a personal guide to your future.

DESIGNING YOUR LIFE

Get ready for a five-year journey where you'll discover your purpose with the help of mentors trained in Life Design.

Even after graduation, RP's got your back for two more years to guide you towards a meaningful career.

DESIGNING YOUR LEARNING

Shape your own learning path! Explore what you love and pick up the skills you need by tailoring your studies to fit your goals – all with support from the Designing Your Life approach.

DESIGNING YOUR IMPACT

Make your mark. RP gives you time and space to give back to the community, grow your passions, and make a difference—while still hitting your academic goals.

Broadening Horizons towards a #GreaterMe

At Republic Polytechnic, education can extend beyond the classroom. Selected opportunities for global exposure allow students to experience new cultures, adapt to different working environments, and return with fresh perspectives that contribute to their #GreaterMe journey.

Overseas Study and Cultural Trips

Students may apply to join short-term immersion programmes across Asia, Europe, and Oceania. These trips provide valuable insights into diverse industries and cultural contexts. Past destinations have included Japan, Finland, Australia, Cambodia, and Vietnam.

Overseas Internships (OIIP)

Through competitive placements, students may secure 20–24 week internships with international organisations such as BLOCK71 (Suzhou, Jakarta), SCTV, Telkom Indonesia, and Four Seasons Hotels. Supported by Enterprise Singapore's Global Ready Talent Programme, these experiences equip participants to contribute confidently in the global workplace.

Service-Learning and Leadership Exchanges

International service-learning projects in Cambodia, Vietnam, and the Philippines give students the chance to engage meaningfully with communities while developing empathy and cultural awareness. The Singapore–ASEAN Leadership Exchange (SCALE) further nurtures leadership qualities and strengthens regional ties.

“My internship in Thailand taught me independence, resilience, and real industry skills. I extended my stay as the experience was invaluable.”

Sasha Loh Xin Lei
Diploma in Integrated Events Management.
2023 Graduate

Global Impact at a Glance

Over 1,000 students participate in overseas programmes annually

Opportunities across more than 20 countries

Up to six months of international internship exposure

Partnerships with 100+ organisations worldwide

Scan to learn more

Co-Curricular Activities

A Vibrant Community Awaits

With more than 70 co-curricular activities (CCAs), student life is where passions thrive. Whether you love performing on stage, competing in the field or exploring new interests, there's a place for you to shine!

Why it matters

CCAs aren't just hobbies. They sharpen leadership, teamwork and resilience. Employers and universities recognise graduates who can balance academic excellence with active CCA involvement.

How to join

New students will be introduced to CCAs during orientation and CCA Fiesta. Each club showcases its activities at recruitment drives and open house, giving you the chance to explore what excites you.

Popular CCAs

C.R.E.A.T.E Club

Performing & Visual Arts

Team Republic Sports Club

Competitive & Recreational Sports

Adventure Learning

Expeditions & Outdoor Sports

Service-Learning

Community & Global Outreach

Student Council

Organise events and lead student initiatives

Journey to **LEVEL UP YOUR FUTURE**

with our guide on the different Admissions Exercises!

APPLICATION PERIOD

JOINT ADMISSIONS EXERCISE (JAE)

January

JAE is an annual admissions exercise conducted in January after the release of the GCE O-Level results.

WHO MAY APPLY?

JAE is open to Singapore Citizens or Permanent Residents with GCE O-Level certification from any year. International students studying in a Government School, Government-Aided School or an Independent School in Singapore with the most recent GCE O-Level Examination results are also welcome to apply.

POLYTECHNIC FOUNDATION PROGRAMME (PFP)

January

The Polytechnic Foundation Programme (PFP) is a one-year, hands-on programme designed to better prepare polytechnic-bound Normal (Academic) students for entry into the relevant Polytechnic Diploma courses. This is an alternative to the Secondary 5 year. PFP offers a practice-oriented curriculum to prepare students for their diploma course. You will be admitted into one of the clusters (Sciences cluster, Design, Engineering & Technology cluster or the Humanities, Art, Media & Business cluster). Upon successful completion of your PFP, you will progress to a diploma course which you have been streamed into.

WHO MAY APPLY?

PFP is open to Secondary 4 Normal (Academic) students who have obtained a raw ELMAB3 score of 12 points or better at the GCE N-Level examinations, from the preceding year of the PFP Admissions Exercise. Eligible students will need to meet the subject-specific requirements at the GCE N-Level examinations. The programme is also available to Secondary 4 Normal (Academic) students who have sat for GCE O-Level subjects.

JOINT POLYTECHNIC ADMISSIONS EXERCISE (JPAE)

February

JPAE is jointly held by the five local polytechnics. It allows candidates to apply for admission to full-time diploma courses.

WHO MAY APPLY?

JPAE caters to holders of relevant Higher Nitec and Nitec qualifications. Graduating ITE students in their final semester – including those in the Direct Entry Scheme to Polytechnic Programme (DPP) – can also apply for their preferred and mapped diploma courses through JPAE.

EARLY ADMISSIONS EXERCISE (EAE)

June

EAE is an aptitude-based admissions exercise that allows applicants to apply for and receive conditional offers for admission into their preferred diploma courses, prior to receiving their final grades.

WHO MAY APPLY?

EAE is open to graduating GCE O-Level students, final-year Nitec, Higher Nitec students from ITE and applicants who are Singapore Citizens or Singapore Permanent Residents with at least two years of relevant full-time working experience.

DIRECT ADMISSIONS EXERCISE (DAE)

August through April

DAE is a direct pathway to RP for applicants who are unable to apply for entry through JAE or JPAE.

WHO MAY APPLY?

DAE is open to GCE O-Level graduates and ITE (full-time) graduates. This exercise is also available to holders of GCE A-Level, Integrated Programme, International Baccalaureate, other International qualifications, and applicants who are Singapore Citizens or Singapore Permanent Residents with at least two years of relevant full-time working experience.

Scan to learn more

Early Admissions Exercise

Secure a spot in your dream diploma early through the Early Admissions Exercise (EAE) and step into #GreaterPurpose! EAE lets you take charge of your future. Showcase your passion with a strong portfolio and ace the interview to secure a spot in your preferred course ahead of your peers.

Why you should join EAE

- Secure a conditional offer before exams – less stress, more clarity
- Let your strengths, creativity, and passions stand out, not just your grades
- Experience RP's student-centric learning and get a first-hand glimpse into your future journey

Who can apply

- Singapore Citizens and Permanent Residents who have registered to sit for the GCE O-Level examinations in the year of EAE application
- ITE students in the final year of their Higher Nitec or Nitec courses
- Singapore Citizens and Permanent Residents with at least two years of relevant work experience
- International Students enrolled in government, government-aided and Independent Schools and who have registered to sit for the GCE O-Level examinations in the year of EAE application

What you'll submit

- **Choose up to 3 courses (across polytechnics):** Submit a 600-character write-up on why you are interested in the course.
- **Showcase your passion:** Submit a 1,000-character write-up highlighting your talents, achievements and soft skills.
- **Working adults:** Include job descriptions (up to 2,000 characters), employment records, and/or recommendations.
- **Additional assessments:** Some courses may require extra steps (e.g., a coding test for Infocomm).

Application Tips

- **Portfolio:** Include projects, CCAs, or work experience
- **Write with impact:** Be clear and focused
- **Prepare for interviews:** Practise course-related questions
- **Explore RP's EAEvolution:** Workshops and course counselling to guide you

“EAE gave me the confidence to secure a spot in a course I'm truly passionate about.”
Evangeline Teo
Diploma in Biomedical Science

“RP broadened my understanding of health beyond just fitness... I see the bigger picture now.”
Yashica Ramesh
Diploma in Sports & Health

Polytechnic Foundation Programme

Begin your diploma journey with flexibility and focus! From 2026, the Polytechnic Foundation Programme (PFP) will welcome top-performing Secondary 4 Normal (Academic) students through cluster-based admissions, offering the flexibility to explore before advancing to Year 1 diplomas with confidence.

Why you should join PFP at RP

You will get a head start in building a strong foundation for your diploma journey with Problem-based Learning, plus exciting experiences like the National Youth Achievement Award (NYAA) Gold programme, leadership expedition camp, service-learning, outdoor education and more.

Eligibility criteria to apply for PFP

Admission depends on your raw ELMAB3 aggregate (≤ 12), excluding CCA bonus points.

PFP Cluster-based admission at RP

Cluster-based entry is tailored to your curiosity, giving you the chance to explore before choosing your diploma. Instead of choosing a specific diploma right away, you will join one of the three broad clusters:

- **Sciences**
- **Design, Engineering & Technology (DET)**
- **Humanities, Art, Media & Business (HAMB)**

You'll be posted into a Year 1 diploma/Common Entry Programme within your cluster after passing your PFP year, based on merit and course choice.

Entry Requirements

• **Sciences Cluster** • **Design, Engineering & Technology (DET) Cluster**

To qualify, students must obtain:

- A minimum grade of 3 in English Language Syllabus A
- A minimum grade of 3 in Mathematics Syllabus A or Additional Mathematics
- A minimum grade of 3 in one of the following relevant subjects:
 - Design and Technology
 - Food and Nutrition / Nutrition and Food Science
 - Science (Chemistry, Biology)
 - Science (Physics, Biology)
 - Science (Physics, Chemistry)
- A minimum grade of 4 in any two other subjects (excluding CCA)

• **Humanities, Art, Media & Business (HAMB) Cluster**

To qualify, students must obtain:

- A minimum grade of 3 in English Language Syllabus A
- A minimum grade of 3 in Mathematics Syllabus A or Additional Mathematics
- A minimum grade of 3 in one of the following relevant subjects:
 - Art
 - Geography
 - History
 - Humanities (Social Studies, Geography)
 - Humanities (Social Studies, History)
 - Humanities (Social Studies, Literature in English)
 - Literature in English
 - Principles of Accounts
- A minimum grade of 4 in any two other subjects (excluding CCA)

Scholarships and Awards

Discover your full potential at RP with our scholarships that celebrate academic excellence, talent and leadership. Take the next step in your journey to becoming your **#GreaterMe** and reach new heights of success!

RP SCHOLARSHIPS

RP offers up to 350 bond-free scholarships each year to full-time RP students with outstanding academic achievements and active involvement in CCAs. The scholarships may also offer internship opportunities with the donors.

EXTERNAL SCHOLARSHIPS

In addition to the wide range of scholarships offered by RP, you can also explore various external scholarships. Visit websites such as BrightSparks, Scholarship Guide and Scholars' Choice for more information.

EDUSAVE AWARDS

Edusave Awards are given by the Ministry of Education every year to Singaporean students who demonstrate excellence in academic and non-academic areas. These awards, given across various levels and courses, include the Edusave Merit Bursary (\$500), Edusave Good Progress Award (\$400), and Edusave Skills Award (\$500). Students who meet the criteria for the awards will be nominated by RP.

I would like to thank the donor, as their contributions have been pillars of motivation for me to strive for excellence and stay focused on my goals. Looking ahead, I will be pursuing a degree in Life Sciences at NUS, where I aspire to make a #GreaterImpact as well."

Gadgil Shruti Hrishikesh

School of Applied Science
2025 Graduate

Recipient of:

- Ngee Ann Kongsi Scholarship (2023)
- Wilmar Scholarship (2024)

These awards have inspired me to study with greater determination and to build a strong portfolio. I would not have achieved as much, or had the honour of becoming Valedictorian, without the generous support of the donor. The assistance also enabled me to cover important expenses, such as overseas school trips, both in and outside school. I am truly grateful for the opportunity to pursue my goals with #GreaterPossibilities."

Xavier Poh Jin Xun

School of Business
2025 Graduate

Recipient of:

- Ngee Ann Kongsi Scholarship (2023)
- Lee Foundation Scholarship (2024)

Thank you for the Foundation's generous support. My journey towards success would not have been as smooth without the help extended by Tan Chin Tuan Foundation. I will be continuing my journey in further studies, I've received several offers and will just need to decide which one is best. I hope to be able to give back to the Foundation one day."

Nur Yazlina Binte Ahmad Yazid

School of Engineering
2025 Graduate

Recipient of:

- Tan Sri (Dr) Tan Chin Tuan Scholarship (2023 & 2024)

I am immensely grateful for these scholarships. Driven by a deep passion for engaging with diverse individuals and meeting customer needs, the scholarships have provided invaluable support in building experience, furthering my education and pursuing a hospitality degree."

Tan Xue Ning

School of Hospitality
2025 Graduate

Recipient of:

- RP Scholarship (2023)
- Republic Polytechnic-Daisy Phay Foundation Scholarship (2024)

I am incredibly grateful for the scholarships I received. These scholarships have helped my educational journey, allowing me to focus more on my studies without the burden of financial stress. They have helped cover essential expenses and have enabled me to participate in co-curricular activities that enhance my learning experience. After graduation, I aspire to pursue a career in IT as a Solution Engineer, where I am passionate about creating new technology. The donors' generosity motivates me to work hard and strive for excellence."

Siew Meng Fong

School of Infocomm
2025 Graduate

Recipient of:

- Republic Polytechnic-Daisy Phay Foundation Scholarship (2023)
- Lee Foundation Scholarship (2024)

The scholarship has helped me to offset part of my tuition fees and has helped push me closer to realising my dream of becoming a physiotherapist who helps people with pre-existing conditions or injuries. I plan to go into SIT physiotherapy after serving my NS and am forever appreciative of the generosity of my benefactors."

Axel Enoch Wen

School of Sports and Health
2025 Graduate

Recipient of:

- Kampung Spirit Fund Scholarship (2024)

The Lee Foundation Scholarship has boosted my confidence and motivation as an aspiring UX Designer. By easing my financial burden, it allows me to focus on contributing to the community and advancing my personal growth. This opportunity strengthens my drive to achieve greater success in the near future."

Roshly Bilaro

School of Technology for Arts, Media and Design
Year 3 Student

Recipient of:

- Lee Foundation Scholarship (2024)

Hear from our Industry Partners

Our RP intern showed great dedication, enthusiasm and a strong work ethic throughout the plant genomic breeding project. The intern took on many different tasks — from growing plants to doing laboratory work and even using computer software for deep phenotyping — showing versatility that is very valuable in research. The student was always eager to learn, quick to adapt and looked for ways to make a real contribution to the project.”

Dr Song Shuang

Research Fellow
National University of Singapore

Our intern from the Diploma in Pharmaceutical Science was a valued member of our team. As an A*STAR Science Award recipient, Li Hen consistently demonstrated remarkable enthusiasm and a strong aptitude for research. His creative problem-solving skills and diligent work ethic contributed significantly to the progress of our projects, making him an integral part of our success.”

Dr Smarajit Chakraborty

Senior Scientist I
A*STAR, Singapore Institute of
Food and Biotechnology Innovation

I strongly recommend RP’s Diploma in Human Resource Management with Psychology. The programme prepares students for today’s fast-changing business world, where they will need to apply what they’ve learned quickly and effectively. The close integration of the RP curriculum with the challenges of the industry will prepare graduates to be relevant and ensure that they adopt lifelong learning to thrive in the dynamic Human Resource profession!”

Ms Carmen Wee

Board Member
Home Team Science & Technology Agency
Workforce Singapore
Pioneer Master Professional,
Institute for Human Resource Professionals

RP’s Diploma in Consumer Insights & Psychology uniquely blends classroom learning with real-world practical experience through internships and final-year projects. You’ll gain versatile skills that open doors to many different careers and roles. At the heart of it, learning how to uncover insights gives you the key to understanding people and the world around you.”

Ms Joan Koh

Senior Vice President
Human Resources (Asia Pacific)
NielsenIQ

RP’s Diploma in Electrical & Electronic Engineering plays a vital role in cultivating a future-ready workforce equipped to meet the dynamic demands of both the electronics and semiconductor industries. With its strong emphasis on real-world application, innovation and hands-on learning, it aligns closely with the evolving needs of our industry. We are confident that this programme will empower the next generation of talent and further strengthen Singapore’s position as a global hub for advanced electronics and semiconductor technology.”

Mr Ang Wee Seng

Executive Director
Singapore Semiconductor Industry Association

We have constantly partnered with RP to hire graduates from the Diploma in Supply Chain Management programme. These graduates bring a strong combination of technical knowledge and a problem-solving mindset. They are well-equipped with the skills and industry readiness to adapt quickly to our fast-paced environment. What truly sets them apart is their eagerness to learn and grow, qualities that make them not only valuable team members but also promising future leaders.”

Mrs Peh Lay Hoon

People Partner Senior Manager
Maersk Contract Logistics

IHG® Hotels & Resorts is proud to be a partner of RP School of Hospitality. RP students can multi-task and problem solve with definitive solutions and options. We look forward to our continued partnership and welcoming many more RP graduates to the hotel industry."

Ms Ashley Loo

Country Lead, Human Resources,
Singapore, Malaysia and Philippines
IHG® Hotels & Resorts

OUE Restaurants has been collaborating closely with RP School of Hospitality for several years covering student final-year projects, co-teaching and co-development of some of its modules as well as organising learning journeys to allow students to experience our dynamic and creative F&B concepts. We find RP students to be passionate, communicative, and effective problem-solvers who have been imbued with the right skills and knowledge needed to achieve success in their careers."

Mr Andrew Ing

Chief Operating Officer
OUE Restaurants

The RP students in our team are exceptional problem-solvers, demonstrating a persistent drive to iterate until a solution is found. They are proactive in researching and developing technology to meet our business needs and significantly contribute to our projects. They self-learn, communicate and collaborate well in the team. They are awesome and I enjoy working with them."

Mr Syan Zen Chew

Senior Manager, Tools & Technology
Oracle Singapore

Working with Republic Polytechnic interns was an enlightening experience. They came equipped with strong foundational knowledge, enabling them to quickly upskill and adapt to the work environment. Their willingness to learn, ability to grasp instructions and sense of responsibility in meeting deadlines make them competent and reliable team members."

Mr Khairul Bin Amat

Team Leader, Innovation & Transformation Team
National Computer Systems

Our collaboration with the students was enriching. The interns at our home showed genuine passion for connecting with our residents, as seen through their active involvement in our programmes. Their positive attitude, dedication to learning and readiness to take on challenges reflect an admirable level of maturity and commitment. We also enjoyed a strong working relationship with the staff, who provided valuable insights and support for our Active Living Unit programme. We're thankful for this meaningful partnership."

Ms Cheng Siok Khoong

Chief Executive Officer
Bright Hill Evergreen Home

Lifeskills Physiotherapy and Consultancy has been an internship partner of RP for over 15 years. Through this partnership, RP interns have numerous opportunities to work with professional and national athletes and assist with on-field coverage for both local and international games. Many were also involved in research studies on fall prevention and exercise for seniors. We are thankful to RP for entrusting us with the opportunity to support their students' learning and development and we look forward to continued collaboration in advancing the field of sports and exercise science."

Ms Karen Koh

Owner
Lifeskills Physiotherapy and Consultancy

At Stellar Lifestyle, a business arm of SMRT, we are proud to support RP's SYMBIOSIS initiative and celebrate the creativity of young talents through purposeful placemaking at our stations. The showcase at Stellar@TE2, featuring vibrant wall stickers and student artworks, transforms Woodlands MRT into a space of inspiration and engagement for daily commuters. This collaboration also extends to other initiatives such as activating Raffles Place MRT with creative placemaking concepts. Through these efforts, we remain committed to nurturing young change makers while making our stations more vibrant and meaningful for commuters."

Mr Tony Heng

President
Stellar Lifestyle

Woodlands Social Centre (WSC) is dedicated to serving families with young children in the Woodlands community. We worked with 2 final-year project teams from RP's Diploma in Sonic Arts. One team worked on the production of an eight-episode podcast series to raise awareness of WSC's social initiatives and community effort. The other team conducted workshops for our beneficiary children providing them with a holistic educational experience and fostering creative engagement. Both teams inspired our children, brought immense joy and conducted their projects with a high level of professionalism."

Mr Joel Seah

Executive Director
Woodlands Social Centre

SCHOOL OF

Applied Science

Ready to unlock the future through science?

Step into a world of possibilities at RP School of Applied Science (SAS), where curiosity meets innovation. Whether you're passionate about sustainability, biomedical breakthroughs or cutting-edge chemistry, our five dynamic diploma programmes and the Common Science Programme will power your journey from the lab to real-world impact. Discover your #GreaterMe and turn your scientific spark into meaningful change.

- Common Science Programme
- Diploma in Applied Chemistry
- Diploma in Biological Sciences

- Diploma in Biomedical Science
- Diploma in Environmental & Marine Science
- Diploma in Pharmaceutical Science

Common Science Programme

Explore the science behind everything and discover where your curiosity can lead you.

Have a knack for science but unsure which field to venture into? Gain a firm scientific foundation by exploring the various disciplines offered by School of Applied Science (SAS). Discover your strengths and explore a wide range of career options available, empowering you to make a well-informed decision when selecting your diploma.

- Take extra time to uncover your true passion for science, enabling informed choices for your academic and professional journey
- Explore diverse scientific disciplines through common foundational modules, building a broad base for your future specialisation
- Choose from five SAS diplomas, expanding your opportunities for specialisation and a rewarding science career

Scan to learn more

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Personal Growth I)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

Semester 1

- General and Physical Chemistry
- Laboratory Practices and Safety
- Mathematics for Applied Science
- Molecular Cell Biology and Biochemistry
- Sustainability and Climate Change

At the end of Semester 1, you will opt for one of the following diplomas/cluster:

- Applied Chemistry (R17)
- Biological Sciences (R16)
- Biomedical Science (R14)

- Environmental & Marine Science (R62)
- Pharmaceutical Science (R22)
- *Biological Sciences Cluster*

Semester 2

If you choose to enter the **Biological Sciences Cluster**, you will take the following modules:

- Anatomy and Physiology
- Data Analytics
- Microbiology
- Organic and Inorganic Chemistry

You will opt for one of the following diplomas at the end of semester 2:

- Biological Sciences
- Biomedical Science
- Pharmaceutical Science

After being placed in one of the SAS diploma programmes, you will study the modules specific to that programme.

My experience in the Common Science Programme (CSP) has been truly inspiring, expanding my understanding of the diverse diplomas offered by SAS. The various CSP events, from mass briefings to workshops, helped me discover my passions and interests, ultimately guiding me to pursue a Diploma in Biomedical Science (DBMS). I am grateful for the opportunities CSP provided, from discovering new things to becoming a Peer Support Leader for my juniors. I will always cherish the holistic experiences I gained through CSP, DBMS and RP, as well as the wonderful friends and supportive lecturers I met along the way, all of which opened up #GreaterPossibilities for my future."

LOH WEI WEN, JACI
2024 Graduate

DIPLOMA IN

Applied Chemistry

Unleash your inner chemist! Create the future of cosmetics, forensics, and materials.

Chemistry meets innovation in our Diploma in Applied Chemistry. Gain hands-on experience with exciting advancements in cosmetic, forensic and materials chemistry. Unleash your potential and design your destiny with us as you delve into the elements that power our world. Join the adventure where every reaction is a step towards your success!

- Gain hands-on chemistry expertise at RP's advanced laboratories – as you develop products, analyse chemicals, and build practical skills to tackle real-world challenges confidently
- Connect with industry experts, collaborate on real-life projects, and build a strong portfolio through internships – accelerating your career in the chemical industry
- Discover diverse careers in beauty and personal care, perfumery, pharmaceuticals, forensics, and materials science with our industry-focused diploma

Scan to learn more

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- 3D Design and Printing
- Analytical Chemistry
- Cosmetic Product Design and Development
- General and Physical Chemistry
- Forensic Science
- Formulation Science and Technology
- Laboratory Practices and Safety
- Laboratory Skills in Analytical Testing
- Laboratory Skills in Chemistry
- Materials Processing and Characterisation
- Materials Science
- Mathematics for Applied Science
- Microbiology
- Molecular Cell Biology and Biochemistry
- Organic and Inorganic Chemistry
- Petrochemical Technology
- Polymer Chemistry
- Quality Assurance and Data Analytics
- Specialty Chemicals
- Sustainability and Climate Change
- Sustainable Production and Products

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

Option A: Select Elective modules totalling 12 Modular Credits (MCs) from the list of modules in applicable Minor programmes and/or from the List of Electives below

Option B: Select a Minor Programme

Option C: Select a CET-based Certificate programme and/or Elective module(s) from the list of modules in applicable Minor programmes or from the List of Electives (only for eligible students)

List of Electives:

- Anatomy and Physiology
- Current Good Manufacturing Practice
- Clinical Development to Commercial Success
- Drug Design and Medicinal Chemistry
- Inventory Management
- Procurement and Supplier Development
- Wafer Fabrication and Packaging

Industry Orientation Programme Modules

Option 1: One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

Option 2: Two-Semester Industry Immersion Programme

- Industry Immersion Programme
- Industry Immersion Programme II

CAREER OPPORTUNITIES

As a Diploma in Applied Chemistry graduate, you can look forward to exciting careers in diverse sectors such as chemicals, cosmetics, pharmaceuticals, petrochemicals, electronics, and materials sectors. Equip yourself to take on roles such as:

- Assistant Chemist
- Assistant Formulator
- Associate Researcher
- Laboratory Technologist
- Materials Planner
- Materials Specialist
- Process Technician
- Product Specialist
- Purchaser
- Quality Assurance/Control Specialist

“Studying the Diploma in Applied Chemistry at Republic Polytechnic has truly transformed my journey. Initially, I lacked confidence in my abilities, but the rigorous training and unwavering support from my instructors helped me build the skills I needed. Representing RP and winning bronze at WorldSkills Singapore 2025 affirmed my self-belief and strengthened my passion to pursue a #GreaterPurpose in chemistry.”

POH WEI XIAN
ANDREA
Year 3 Student

DIPLOMA IN

Biological Sciences

Explore the fascinating world of life sciences.

This diploma programme unlocks exciting career paths for you in biotechnology, agritech and food science. Start with foundational subjects such as molecular biology, microbiology, genetics, and anatomy, and build a strong theoretical foundation and practical skills from day one.

- Customise your learning with up to four electives, exploring science, business, digital skills, or entrepreneurship to shape your unique career pathway
- Develop innovative solutions through our Research Apprenticeship Programme – tackle real-world challenges in biotech or food innovation and create impact before you graduate
- Build in-demand skills and earn industry-recognised certificates – gain research experience and prepare for diverse careers in biotech, agrifood, or food manufacturing

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Anatomy and Physiology
- Data Analytics
- General and Physical Chemistry
- Laboratory Practices and Safety
- Mathematics for Applied Science
- Microbial and Cellular Applications in Food and Health
- Microbiology
- Molecular Cell Biology and Biochemistry
- Organic and Inorganic Chemistry
- Recombinant DNA Technologies
- Sustainability and Climate Change

Major Modules

Major in Biotechnology

- Analytical Chemistry
- Biological Applications in Health and Diagnostics
- Biopharmaceutical Production
- Cell Culture
- Genetics
- Genomics
- Immunology
- Protein Technologies
- Research Apprenticeship Programme in Bio-Innovation

Major in Food & Agricultural Science

- Agricultural Technology
- Agri-science and Tissue Culture
- Analytical Chemistry
- Food and Nutritional Sciences
- Food Processing and Packaging
- Genetics
- Quality Assurance in Agricultural and Food Products
- Research Apprenticeship Programme in Sustainable Food Innovation

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

Option A: Select Elective modules totalling 16 Modular Credits (MCs) from the list of modules in the Minor programmes that are applicable to the Diploma and/or from the List of Electives below

Option B: Select a Minor Programme and an elective module of 4 MCs from the list of modules in the Minor programmes that are applicable to the Diploma or from the List of Electives below

Option C: Select a CET-based Certificate programme and/or Elective module(s) from the list of modules in the Minor programmes that are applicable to the Diploma or from the List of Electives below (only for eligible students)

List of Electives for Major in Biotechnology:

- Agri-science and Tissue Culture
- Aquaculture Farm Management and Operations
- Aquaculture Genetics
- Aquatic Animal Health and Nutrition
- Digital Health Innovations and Applications

List of Electives for

Major in Food & Agricultural Science:

- Aquaculture Farm Management and Operations
- Aquaculture Genetics
- Aquatic Animal Health and Nutrition
- Cell Culture
- Digital Health Innovations and Applications
- Immunology
- Protein Technologies

Industry Orientation Programme Modules

Option 1: One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

Option 2: Two-Semester Industry Immersion Programme

- Industry Immersion Programme
- Industry Immersion Programme II

CAREER OPPORTUNITIES

You can explore careers in various life sciences industries, including biotechnology, biopharmaceuticals, medical research, agrifood, food product development & manufacturing. Consider opportunities in roles such as:

- Agriculturist
- Assistant Agricultural Scientist
- Assistant Biotechnologist
- Assistant Food Technologist
- Biopharmaceutical Production Technician/Senior Technician
- Food and Microbiology Specialist
- Health Education Officer
- Laboratory Assistant/Technologist
- Market Development Executive
- Quality Control Assistant
- Laboratory Analyst
- Quality Assurance Assistant
- Research Assistant/Technologist

“In this course, my favourite module is the Food Innovation and Sustainability module (renamed as Research Apprenticeship Programme in Sustainable Food Innovation). Collaborating with industry to develop sustainable food solutions allowed me to apply my food processing knowledge and lab skills in a meaningful way. The Problem-based Learning approach simplified complex concepts while lab workshops and field trips enriched my journey towards making a #GreaterImpact.”

CHUA RUI-EN
2023 Graduate

DIPLOMA IN

Biomedical Science

Transform your fascination with how the human body responds to disease into a rewarding career in biomedical science and healthcare.

Gain a comprehensive understanding of the human anatomy, and the molecular and physiological mechanisms underlying various diseases. Explore the fundamentals of bioinformatics and its use to investigate genes, proteins, and complex biological systems. Acquire investigative and technical skills to perform scientific research and laboratory diagnostics, preparing you for a rewarding career in the biomedical science and the healthcare industry.

- Learn anatomy in a truly interactive way at our dedicated Anatomy Learning Centre, packed with anatomical models and real specimens. You'll also be supported by innovative EdTech that makes complex science easier to understand
- Develop mastery in laboratory techniques through hands-on training offered in both two Majors – Biomedical Research and Medical Laboratory Technology
- Learn about the integration of biology with data science in the Bioinformatics module, and how it drives healthcare innovation

SCHOOL OF Business

Embrace the future of business with RP School of Business (SBZ), where innovation meets impact.

As AI and digital technologies transform the world, SBZ empowers you with the knowledge, skills and confidence to lead the change. Our multidisciplinary approach blends business acumen, entrepreneurial drive and sustainability awareness, preparing you to navigate complexity and seize opportunities. With real-world learning and industry partnerships at the core of our curriculum, you'll be ready not just to adapt but to innovate, inspire and shape the future of business while unlocking #GreaterPossibilities with every step.

Common Business Programme
(jointly offered by SBZ and SOH)

Diploma in Business

Diploma in Consumer Insights & Psychology

Diploma in Human Resource Management with Psychology

Diploma in Mass Communication

Common Business Programme

Explore the many paths available with the Common Business Programme (CBP), which provides business choices that shape your future.

In the fast-paced world of business and hospitality, finding your focus can be challenging. That is where CBP helps, guiding you to the right diploma whether in RP School of Business (SBZ) or RP School of Hospitality (SOH). Gain essential business skills to build a strong foundation for your career.

- Gain insights into Business and Hospitality, equipping yourself with knowledge for diverse and rewarding career opportunities
- Choose from seven diplomas across RP's School of Business and School of Hospitality, expanding your options for a rewarding professional future
- Build a strong business foundation with modules in accounting, economics, and marketing, preparing you for diverse career paths

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Personal Growth I)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Financial Accounting
- Fundamentals of Customer Experience
- Marketing
- Microeconomics

At the **end of semester 1**, you will opt for one of the following diplomas/clusters:

- Business (R60)
- Consumer Insights & Psychology (R48)

- Events & Project Management (R28)
- Hospitality & Tourism Management (R66)
- Hotel & Leisure Management (R37)
- Human Resource Management with Psychology (R52)
- Restaurant & Culinary Management (R46)
- *Business Cluster*
- *Hospitality Cluster*

Semester 2

If you choose the **Business Cluster**, you will opt for one of the following **SBZ diplomas at the end of semester 2**:

- Business (R60)
- Consumer Insights & Psychology (R48)
- Human Resource Management with Psychology (R52)

If you choose the **Hospitality Cluster**, you will opt for one of the following **SOH diplomas at the end of semester 2**:

- Events & Project Management (R28)
- Hospitality & Tourism Management (R66)
- Hotel & Leisure Management (R37)
- Restaurant & Culinary Management (R46)

From the second semester, you will study the modules that are allocated to a specific diploma programme from SBZ or SOH.

“I'm glad I began my journey with the Common Business Programme (CBP). It allowed me to explore various areas in business and hospitality and learn from peers with diverse strengths and perspectives. Seeing everyone find their path was inspiring. That first year helped me discover mine, which led me to Diploma in Business as it truly aligned with my interests and passion. It was a meaningful start to uncovering my #GreaterPurpose.”

**CIARA ALYSSA

2025 Graduate

DIPLOMA IN

Business

Empower the next generation of business leaders for an increasingly digital and sustainable future.

Aspire to be a business leader? The Diploma in Business (DBIZ) equips you with a solid business foundation to thrive in today's dynamic business landscape. Choose from majors in Digital Marketing, International Business, or Banking & Finance, and gain real-world experience through internships and projects with leading industry players.

- Master digital marketing, platform business and e-commerce operations, elevating your expertise in analytics, marketing AI and content creation with the Digital Marketing Major
- Gain expertise in international trade, cross-cultural communication and strategic planning with the International Business Major, preparing for success in global business environments
- Master financial analysis, risk assessment and banking operations with the Banking & Finance Major and enhance your expertise through prestigious bank internships

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Design Thinking for Business Innovation
- Digital Marketing & eCommerce
- Entrepreneurship
- Financial Accounting
- Fundamentals of Customer Experience
- Human Capital Management
- Macroeconomics
- Management Accounting
- Marketing
- Microeconomics

Major Modules

Major in Digital Marketing

- Business and Impact Assessment
- Business and Sustainability
- Business Law
- Consumer Behaviour
- Digital Business Strategies
- Digital Marketing Analytics
- Digital Media Content Creation & Management
- Ecommerce Operations

Major in International Business

- Business and Impact Assessment
- Business and Sustainability
- Business Law
- Data Visualisation and Analysis
- Distribution and Transportation
- International and Cross-cultural Marketing
- International Business
- International Trade Finance

Major in Banking & Finance

- Business Law
- Data Visualisation and Analysis
- Financial Markets and Institutions
- Financial Technologies
- International Trade Finance
- Investment Analysis
- Risk and Compliance
- Sustainable Finance

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

Option A: Select Elective modules totalling 12 Modular Credits (MCs) from the List of Electives below and/or from the list of modules in applicable Minor Programmes

Option B: Select a Minor Programme

Option C: Select a CET-based Certificate programme and/or Elective module(s) from the List of Electives below or from the list of modules in applicable Minor programmes (only for eligible students)

List of Electives:

- Advanced Integrated Marketing Communications
- Diversity, Equity and Inclusion
- Learning and People Development
- Public Relations and Communications Management
- Social Psychology
- Visual Communication

Industry Orientation Programme Modules

One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

CAREER OPPORTUNITIES

As a DBIZ graduate, you may look forward to exciting careers in your respective domains:

Major in Digital Marketing

- Content Strategist
- Digital Marketing Specialist
- SEO Analyst
- Social Media Executive

Major in International Business

- Export Executive
- Global Marketing Executive
- International Business Consultant
- International Trade Analyst

Major in Banking & Finance

- Banking Sales Executive
- Credit Analyst
- Risk and Compliance Executive
- Sustainable Finance Analyst

RP's Problem-based Learning strengthened my critical thinking, communication and teamwork skills. The practical curriculum prepared me well for my internship at Pan Pacific Hotel and supported my admission into the Bachelor of Accountancy at NTU. With RP's supportive environment, I was able to juggle academics and sports, earning a SEA Games 2023 bronze medal in Men's Epee. These experiences empowered me to create #GreaterImpact—in school, in sport, and beyond."

CAREER OPPORTUNITIES

As a DMC graduate, you can look forward to exciting careers in the media and creative industries. You will be well-positioned to take on roles such as:

Commercial Enterprises

- Corporate Communications Executive
- Marketing Communications Executive

Media and Creative Industry

- Advertising Executive
- Assistant Producer
- Digital Content Creator
- Journalist/Writer
- Public Relations Executive
- Social Media Executive

“RP gave me more than just an education; it gave me the confidence to explore my passions in digital storytelling, journalism and advocacy. Each module, project and mentor helped me grow both professionally and personally. Most importantly, I discovered that growing at my own pace is just as valuable as the destination. These experiences unlocked my #GreaterPossibilities.”

LETICIA CHNG
2025 Graduate

SCHOOL OF Engineering

Shape the future with RP School of Engineering (SEG), where bold ideas become reality.

Master the technical skills and creative thinking needed to engineer impactful solutions for tomorrow's challenges. From robotics and sustainability to smart systems and automation, SEG empowers you to pioneer innovation and make a lasting difference while driving #GreaterImpact in a rapidly evolving world.

Common Engineering Programme

Diploma in Aerospace Engineering

Diploma in Aviation Management

Diploma in Business Process &
Engineering Management

Diploma in Electrical & Electronic Engineering

Diploma in Engineering

Diploma in Mobility & Robotic Systems

Diploma in Supply Chain Management

Diploma in Sustainable Built Environment

Common Engineering Programme

Stay flexible and keep your options open as you explore infinite possibilities in engineering.

Unsure which engineering field to specialise in? The Common Engineering Programme is your ideal starting point. This programme allows you to explore your interests and gain a comprehensive understanding of the various engineering diplomas offered by the School of Engineering. Enjoy the flexibility of up to one year to make an informed decision on the specific diploma that best suits your passion and career goals.

- Discover diverse engineering opportunities and unlock pathways to innovation, problem-solving, and impactful careers in various industries
- Gain extra time to explore interests and make informed decisions before specialising in an engineering field, ensuring the best fit for your career
- Build a strong foundation with first-semester modules and activities, preparing you for deeper learning in engineering

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Personal Growth I)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

Semester 1

You will take the following modules:

- Data Visualisation and Analysis for Engineering
- Engineering Design
- Engineering Mathematics
- Fundamentals of Unmanned Systems

At the **end of Semester 1**, you will opt for one of the following diplomas/clusters:

- Aerospace Engineering (R40)
- Aviation Management (R39)
- Business Process & Engineering Management (R11)

- Electrical & Electronic Engineering (R50)
- Engineering (R56)
- Mobility & Robotic Systems (R54)
- Supply Chain Management (R21)
- Sustainable Built Environment (R61)
- *Engineering Cluster*
- *Engineering Management Cluster*

Semester 2

If you choose to enter the **Engineering Cluster**, you will take the following modules:

- Electrical and Electronic Fundamentals
- Fundamentals of Industrial Internet of Things
- Principles of Mechanics
- Programming for Engineering

You will opt for one of the following **diplomas at the end of semester 2**:

- Aerospace Engineering
- Electrical & Electronic Engineering
- Engineering
- Mobility & Robotic Systems
- Sustainable Built Environment

If you choose to enter the **Engineering Management Cluster**, you will take the following modules:

- Fundamentals of Industrial Internet of Things
- Operations Planning
- Programming for Engineering
- Statistical Methods for Engineering

You will opt for one of the following **diplomas at the end of semester 2**:

- Aviation Management
- Business Process & Engineering Management
- Engineering
- Supply Chain Management

After being placed in one of the SEG diploma programmes, you will study the modules specific to that programme.

I am a proud graduate of RP, where I enrolled in the Common Engineering Programme after completing my studies at Queensway Secondary. RP became the launchpad for my aspirations. Its hands-on, Problem-based Learning helped me build strong fundamentals in engineering, critical thinking and teamwork. Those skills empowered me to pursue a degree in business and apply engineering concepts in real-world settings. RP gave me confidence, clarity of purpose and #GreaterPossibilities."

GOH CHEH WEI
2022 Graduate

DIPLOMA IN

Aerospace Engineering

Launch your journey to becoming a
Licensed Aircraft Engineer.

Get off to a flying start in the aerospace sector with this diploma approved by the Civil Aviation Authority of Singapore. Gain hands-on experience by training on an actual aircraft in our hangar, mastering aircraft maintenance and building a firm foundation in global aviation regulations. Begin your journey towards becoming a Licensed Aircraft Engineer.

- Gain foundational expertise in aircraft structural and engine maintenance and repair, while mastering aerospace engineering complexities and safety protocols for industry readiness
- Receive robust training from a SAR-147 Approved Maintenance Training Organisation, ensuring you meet industry standards for aviation excellence
- Undergo a 20-week Industry Immersion Programme with Pratt & Whitney, StandardAero, ST Engineering Aerospace, and others, or 24 weeks of Aerospace Engineering Skills Training

- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Aerodynamics and Propulsion
- Aircraft Inspection
- Airframe Structures and Engine Systems
- Aviation Legislation and Human Factors
- Aviation Maintenance Practices
- Data Visualisation and Analysis for Engineering
- Digital Techniques and Electronic Instrument Systems
- Digital Techniques and Electronic Instrument Systems II
- Electrical and Electronic Fundamentals
- Electrical and Electronic Fundamentals II
- Engineering Design
- Engineering Materials
- Engineering Mathematics
- Fundamentals of Industrial Internet of Things
- Fundamentals of Unmanned Systems
- Principles of Mechanics
- Programming for Engineering
- Thermofluids

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

Option A: Select Elective modules totalling 12 Modular Credits (MCs) from the list of modules in the Minor programmes that are applicable to the Diploma and/or from the modules listed below:

- Aircraft Hardware
- Operations Planning
- Statistical Methods for Engineering

Option B: Select a Minor Programme

Option C: Select a CET-based Certificate programme and/or Elective module(s) from the list of modules in the Minor programmes that are applicable to the Diploma (only for eligible students)

Industry Orientation Programme Modules

Option 1: One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Aerospace Engineering Skills Training
- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

Option 2: Two-Semester Industry Immersion Programme

- Industry Immersion Programme or Industry Immersion Programme (Special Programme)
- Industry Immersion Programme II

CAREER OPPORTUNITIES

With a solid foundation in technical skills, you are poised to take up a comprehensive range of careers in the aviation industry. You can pursue opportunities in roles such as:

- Aircraft Avionics System Specialist
- Airframe and Engine Inspector
- Assistant Engineer
- Fleet Management Planner
- Licensed Aircraft Engineer
- Material/Production Planner
- Non-Destructive Testing Inspector
- Quality Control Inspector
- Technical Support Personnel
- Workshop Engineer

“My time at RP extended far beyond academic learning. It offered diverse opportunities to cultivate new skills, including earning a Bronze Medal at WorldSkills Singapore 2023. The dedicated and experienced lecturers not only equipped me with essential skills but also deepened my understanding of the aviation sector. RP played a pivotal role in solidifying my career aspirations and opened the door to #GreaterPossibilities in the world of aerospace.”

Engineering

Explore your career options as a visionary design engineer, strategic project manager, or sustainability technology expert!

Build a strong foundation in design, programming, data analysis, and Industrial Internet of Things. Specialise in Innovation & Design, Project Management, or Sustainable Technology to prepare you for high-demand engineering careers and further enhance your expertise with a minor in business or entrepreneurship.

- Gain broad-based knowledge and the flexibility to specialise in three Majors: Innovation & Design, Project Management, or Sustainable Technology, broadening your career prospects
- Tailor your curriculum by choosing modules in programming, automation, business processes, and supply chain management, aligning your studies with your engineering interests
- Add to your skills and expertise by pursuing minor programmes such as business or entrepreneurship or by undergoing a one-year internship programme

Scan to learn more

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Data Visualisation and Analysis for Engineering
- Engineering Design
- Engineering Mathematics
- Fundamentals of Industrial Internet of Things
- Fundamentals of Unmanned Systems
- Programming for Engineering

Major Modules

Major in Project Management

- Engineering Cost Decisions
- Innovation and Design Thinking
- Lean and Six Sigma
- Operations Planning
- Procurement and Supplier Development
- Project Management
- Statistical Methods for Engineering
- Technologies for Integrated Digital Delivery

Major in Innovation and Design

- Computer Aided Design
- Digital Electronics
- Electrical and Electronic Fundamentals
- Electronic Design and Development
- Innovation and Design Thinking
- Mechatronic Systems and Design
- Principles of Mechanics
- Product Design and Prototyping

Major in Sustainable Technology

- Building Information Modelling
- Electrical and Electronic Fundamentals
- Energy Management and Sustainability
- Environmental Management and Assessment
- Green Building Technology and Design
- Principles of Mechanics
- Resource Management and Circular Economy
- Smart Facilities Management

Elective Modules

Customise your learning pathways by selecting a **minimum of 16 Modular Credits (MCs)** from this list:

- Artificial Intelligence in Engineering
- Automation Systems
- Business Process Management
- Circuit Analysis and Control
- Distribution and Transportation
- Electrical and Electronic Fundamentals
- Electronic Devices and Circuits
- Engineering Materials
- Human Factors Engineering
- Inventory Management
- IT for Supply Chain Management
- Microcontroller Systems
- Operations Planning
- Principles of Mechanics
- Sensor Systems
- Statistical Methods for Engineering
- Supply Chain Management

AND select ONE of the following options (up to 12 MCs):

Option A: Select the remaining Elective modules from the list of modules in the Minor programmes that are applicable to the Diploma

Option B: Select a Minor Programme

Option C: Select a CET-based Certificate programme and/or Elective module(s) from the list of modules in the Minor programmes that are applicable to the Diploma (only for eligible students)

Industry Orientation Programme Modules

Option 1: One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

Option 2: Two-Semester Industry Immersion Programme

- Industry Immersion Programme or Industry Immersion Programme (Special Programme)
- Industry Immersion Programme II

CAREER OPPORTUNITIES

You can look forward to excellent career prospects across a wide range of digital and electronics industries in roles such as:

- Assistant Design Engineer (Innovation & Design)
- Assistant Facilities Engineer (Sustainable Technology)
- Assistant Product Engineer (Innovation & Design)
- Assistant Project Engineer (Project Management)
- Assistant Sustainable Product Engineer (Sustainable Technology)
- Project Executive/Coordinator (Project Management)
- Sales Engineer/Executive
- Scheduler/Planner (Project Management)
- Any other roles related to Project Management, Engineering Design and Sustainable Technology

From the moment I stepped into RP, I knew I found the perfect blend of engineering and business that matched my interests. Though I feared the unknown, embracing challenges became one of my best decisions. RP opened doors to endless opportunities and helped me grow into a more confident, capable #GreaterMe."

KHOO KIAT CHING
2025 Graduate

DIPLOMA IN

Mobility & Robotic Systems

Equip yourself with in-depth training for dynamic roles in transportation and automation/robotic industries.

Gain extensive knowledge and skills in mobility and robotic systems through the Diploma in Mobility & Robotic Systems. Explore key areas such as intelligent mobility systems and robotic platforms for transporting people and cargo. This programme prepares you for in-demand functional roles within the dynamic and technology-intensive transportation and automation industry sectors.

- Gain in-demand skills for high-growth sectors like urban land transport, self-driving cars, automation, and robotics, boosting your career opportunities
- Equip yourself with skills relevant to logistics, intelligent systems, and urban land transportation, expanding your versatility across multiple industries
- Gain a career head start with a 20-week Industry Immersion Programme, plus an optional 16-week extension, at LTA, SBS Transit, SMRT, Omron, SICK, Siemens, and more

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Artificial Intelligence in Engineering
- Automation Systems
- Data Visualisation and Analysis for Engineering
- Digital Electronics
- Electrical and Electronic Fundamentals
- Emerging Technologies and Applications in Mobility Systems
- Engineering Design
- Engineering Materials
- Engineering Mathematics
- Fundamentals of Industrial Internet of Things
- Fundamentals of Unmanned Systems
- Principles of Mechanics
- Programming for Engineering
- Project Management
- Rail Operations Management and Maintenance
- Robotics Systems
- Sensor Systems
- Transportation Planning and Design

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

Option A: Select Elective modules totalling 12 Modular Credits (MCs) from the list of modules in the Minor programmes that are applicable to the Diploma and/or from the modules listed below:

- Operations Planning
- Statistical Methods for Engineering

Option B: Select a Minor Programme

Option C: Select a CET-based Certificate programme and/or Elective module(s) from the list of modules in applicable Minor Programmes (only for eligible students)

Industry Orientation Programme Modules

Option 1: One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

Option 2: Two-Semester Industry Immersion Programme

- Industry Immersion Programme or Industry Immersion Programme (Special Programme)
- Industry Immersion Programme II

CAREER OPPORTUNITIES

You will unlock a world of unlimited career opportunities in the dynamic fields of intelligent systems, smart automation systems and urban land transport solutions with roles such as:

- Assistant Engineer (Electrical/Facilities/ Equipment/Maintenance/Mechanical/Process/ Quality/Integration/Product/Rail Operations)
- Assistant Train Station Manager
- Automation and Robotics Assistant Engineer
- System Assistant Engineer
- Urban Transport Operators (Rail and Bus)/ Technical Specialist

“RP has truly shaped who I am today. I've grown not just in skills, but in confidence and resilience. My lecturers were incredibly supportive, and somehow, RP always got me to do things I never believed I could. Along the way, I deepened my passion and knowledge in both robotics and land transport, a powerful blend of skills that has prepared me well to create #GreaterImpact for today's industry.”

CHRISTINE
2025 Graduate

DIPLOMA IN

Supply Chain Management

Join the dots in a connected global marketplace with a firm understanding of the supply chain.

Discover what it takes to be a supply chain management specialist and why it is the backbone of business success! In this course, you will explore the complexities of every aspect of a supply chain from procurement, supply and demand planning to distribution and logistics operations. Gain skills and knowledge on processes and practicalities behind the movement of goods, information and finances along the supply chain. Understand how suppliers, manufacturers, distributors, and retailers come together to drive international trade forward.

- Master supply chain models, operations and concepts, covering AI, sustainability, Internet of Things, data visualisation and many more. Earn industry-recognised certification like SAP to boost your career prospects
- Graduate ready for success with real-world learning in the Supply Chain Innovation Lab, coupled with robust curriculum, gaining skills and confidence for work, work-study, and/or further university studies
- Gain industry exposure through site visits, projects and internships with top supply chain companies, preparing you for diverse roles across multiple sectors

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Cold Chain and Pharmaceutical Supply Chain
- Data Visualisation and Analysis for Engineering
- Distribution and Transportation
- Engineering Cost Decisions
- Engineering Design
- Engineering Mathematics
- Fundamentals of Industrial Internet of Things
- Fundamentals of Unmanned Systems
- Inventory Management
- IT for Supply Chain Management
- Lean and Six Sigma
- Operations Planning
- Procurement and Supplier Development
- Programming for Engineering
- Project Management
- Statistical Methods for Engineering
- Supply Chain Management
- Warehousing and Storage

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

Option A: Select Elective modules totalling 12 Modular Credits (MCs) from the list of modules in the Minor programmes that are applicable to the Diploma and/or from the modules listed below:

- Electrical and Electronic Fundamentals
- Principles of Mechanics

Option B: Select a Minor Programme

Option C: Select a CET-based Certificate programme and/or Elective module(s) from the list of modules in the Minor programmes that are applicable to the Diploma (only for eligible students)

Industry Orientation Programme Modules

Option 1: One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

Option 2: Two-Semester Industry Immersion Programme

- Industry Immersion Programme or Industry Immersion Programme (Special Programme)
- Industry Immersion Programme II

CAREER OPPORTUNITIES

Look forward to building dynamic careers at all levels of the supply chain across a wide range of industries. You will be in a good position to pursue careers such as:

- Executive (Logistics & Operations)
- Fulfilment Executive
- Inventory and Warehouse Executive
- Logistics Solution Analyst
- Marketing and Customer Service Executive
- Operations Controller
- Procurement Executive
- Product Development Executive
- Regional Trade Executive
- Supply Chain Executive
- Supply Chain Management Trainee
- Trade Executive

“Supply chain isn't just about moving things, it's about connecting people, shaping economies, and improving lives. This journey has given me a #GreaterPurpose, to build smarter, more connected systems that make a real difference.”

ANGEL TEE XYN PYN

DIPLOMA IN

Sustainable
Built Environment

Transform the future with smart, sustainable building and architectural technologies.

Be at the cutting edge of digital and smart technologies for the Built Environment (BE)! Pick up skills that will allow you to design or manage buildings with features like Jewel Changi Airport's glass grid shell roof, HSBC Rain Vortex and Canopy Park. This diploma will ensure you are ready to take on various engineering positions in the exciting BE and Architecture, Engineering & Construction industry.

- Acquire expertise in digital and smart technologies for the Built Environment, mastering advanced tools to design, simulate, and manage buildings, preparing for future-ready careers
- Gain hands-on experience with green technologies and digital tools, empowering you to design energy-efficient buildings and drive Singapore's green and digital transformation
- Contribute to sustainability by designing and building a greener, healthier & low-carbon Built Environment, enhancing Singapore's environmental health and urban resilience

SCHOOL OF Hospitality

Step into the world of hospitality with confidence at RP School of Hospitality (SOH).

Immerse yourself in a dynamic learning journey where innovation, technology and customer-centric thinking come together. From customer analytics and immersive experiences to entrepreneurship, tourism and sustainability, you'll gain the expertise to thrive in one of the world's most exciting industries. Let your passion shape unforgettable experiences and pursue your #GreaterPurpose in the global hospitality landscape.

Common Business Programme
(jointly offered by SBZ and SOH)

Diploma in Events & Project Management

Diploma in Hospitality & Tourism Management

Diploma in Hotel & Leisure Management

Diploma in Restaurant & Culinary Management

Common Business Programme

Explore the many paths available with the **Common Business Programme (CBP)**, which provides business choices that shape your future.

In today's dynamic business and hospitality landscape, discovering your path can be challenging. That's where the Common Business Programme (CBP) comes in—helping you explore and choose the right diploma from either RP's School of Business (SBZ) or School of Hospitality (SOH).

- Explore both Business and Hospitality sectors to gain valuable insights and prepare for a wide range of exciting career opportunities
- Build a solid foundation in business through core modules such as accounting, economics, and marketing—skills that open doors to diverse professional pathways
- Choose from seven diploma options offered across SBZ and SOH, giving you flexibility and breadth in shaping your future

Scan to learn more

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Personal Growth I)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Financial Accounting
- Fundamentals of Customer Experience
- Marketing
- Microeconomics

At the **end of semester 1**, you will opt for one of the following diplomas/clusters:

- Business (R60)
- Consumer Insights & Psychology (R48)

- Events & Project Management (R28)
- Hospitality & Tourism Management (R66)
- Hotel & Leisure Management (R37)
- Human Resource Management with Psychology (R52)
- Restaurant & Culinary Management (R46)
- *Business Cluster*
- *Hospitality Cluster*

Semester 2

If you choose the **Business Cluster**, you will opt for one of the following **SBZ diplomas at the end of semester 2**:

- Business (R60)
- Consumer Insights & Psychology (R48)
- Human Resource Management with Psychology (R52)

If you choose the **Hospitality Cluster**, you will opt for one of the following **SOH diplomas at the end of semester 2**:

- Events & Project Management (R28)
- Hospitality & Tourism Management (R66)
- Hotel & Leisure Management (R37)
- Restaurant & Culinary Management (R46)

From the second semester, you will study the modules that are allocated to a specific diploma programme from SBZ or SOH.

“My educational journey took many turns, from Pasir Ris Secondary to ITE College East, then RP's Common Business Programme, where I found my forte in Hospitality. Leading SOH Club initiatives and mentoring peers opened doors to meaningful experiences, shaping me into a passionate community builder. Receiving the Tay Eng Soon Gold Medal affirms my growth as I now pursue #GreaterPossibilities furthering my studies at SMU while working as a hotel concierge at Marina Bay Sands.”

ELSA FOO RUI SAN
2025 Graduate

DIPLOMA IN

Events & Project Management

Gain the expertise to manage events such as concerts, sporting events and large-scale business functions, while mastering digital tools and project management to prepare you for success in Singapore's vibrant live entertainment and events industry.

The Diploma in Events & Project Management (DEPM) prepares you for success in Singapore's dynamic events and live entertainment industry. Learn to plan and manage local and global events from concerts to sports events to MICE projects while gaining essential digital and project management skills. DEPM develops your strategic thinking, communication and problem-solving abilities for roles across corporate, commercial and non-profit sectors.

- Globally Recognised Certification: Our curriculum integrates content for the globally recognised Project Management Institute® Certified Associate in Project Management (CAPM)® certification, giving you a powerful head start in the industry
- Real-World Experiences: Master event planning and execution through hands-on learning, real-world case studies, and opportunities to create event experiences with partners like Singapore F1 and prove your skills by winning national competitions such as the Singapore MICE Challenge
- Accelerate your career with the Talent Advancement Programme (TAP), where you'll gain valuable work experience through a one-year internship, expand your industry network, and boost your earning potential

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Conferences and Exhibitions Management
- Customer Analytics
- Event Design and Experience
- Event Technology and Operations
- Events and Project Management
- Financial Accounting
- Fundamentals of Customer Experience
- Hospitality and Tourism Management
- Hospitality Business Management
- Hospitality Revenue Management
- Hotel and Leisure Management
- Live Entertainment and Special Events Management
- Marketing
- Microeconomics
- Project Management Fundamentals
- Quality and Safety Management for Projects
- Restaurant and Culinary Management
- Sustainability in Events

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

Option A: Select Elective modules totalling 12 Modular Credits (MCs) from the list of modules in applicable Minor Programmes

Option B: Select a Minor Programme

Option C: Select a CET-based Certificate programme and/or Elective module(s) from the list of modules in applicable Minor Programmes (only for eligible students)

Industry Orientation Programme Modules

Option 1: One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

Option 2: Two-Semester Industry Immersion Programme

- Industry Immersion Programme
- Industry Immersion Programme II

CAREER OPPORTUNITIES

As a DEPM graduate, you can pursue a dynamic career in event and project management, working across a wide range of industries in diverse positions such as:

- Account Executive / Manager
- Conference and Events Executive / Manager
- Event Coordinator / Executive / Manager
- Event Marketing Executive / Manager
- Event Operations Executive / Manager
- Event Sales Executive / Manager
- Marketing Executive / Manager
- Project Coordinator / Manager / Director
- Project Executive / Manager (Events)
- Special Events Planner

“Studying the diploma was a game-changer. I gained hands-on experience planning real events, which sharpened my project management and communication skills. The collaborative, Problem-based Learning approach challenged me to think critically and adapt quickly. It did not just prepare me for a job, it empowers me to make a #GreaterImpact in the events industry.”

2025 Graduate

DIPLOMA IN

Hospitality & Tourism Management

Embark on a fun, dynamic and global journey in customer experience, sales, and sustainable tourism, where you can gain invaluable experience and industry-ready skills through our immersive hospitality and tourism diploma.

The Diploma in Hospitality & Tourism Management (DHTM) offers aspiring professionals who seek a future-ready, experience-driven education that truly reflects the essence of the industry – fun, dynamic and global.

Scan to learn more

- Explore the hospitality and tourism industry in Year 1, then specialise in Year 2 to make informed decisions and build a solid foundation for your future career
- Choose from three industry-aligned Majors in Year 2: Customer Experience & Innovation, Sustainable Tourism, or Sales & Revenue Management to shape your career path with confidence
- Accelerate your career with the Talent Advancement Programme (TAP), where you'll gain valuable work experience through a one-year internship, expand your industry network, and boost your earning potential

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Events and Project Management
- Financial Accounting
- Fundamentals of Customer Experience
- Hospitality and Tourism Management
- Hospitality Business Management
- Hotel and Leisure Management
- Marketing
- Microeconomics
- Restaurant and Culinary Management
- Sustainable Tourism Development

Major Modules

Select **ONE** of the following options:

Major in Customer Experience & Innovation

- Consumer Behaviour
- Customer Analytics

- Customer Relationship Management
- Innovative Experience Creation
- Integrated Service Communications
- Introduction to User Experience
- Managing Customer Experience
- Servicescape Design

Major in Sales & Revenue Management

- Advanced Hospitality and Tourism Analytics
- Customer Analytics
- Digital Marketing and eCommerce
- Entrepreneurship
- Hospitality Revenue Management
- Hospitality Sales
- Management Accounting
- Revenue Optimisation

Major in Sustainable Tourism

- Air Travel Management
- Business Sustainability Communication
- Customer Analytics
- Destination and Attractions Management
- Resorts Management
- Sustainability in Events
- Sustainability Reporting and Carbon Management
- Wellness Tourism

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

Option A: Select Elective modules totalling 12 Modular Credits (MCs) from the list of modules in applicable Minor Programmes

Option B: Select a Minor Programme

Option C: Select a CET-based Certificate programme and/or Elective module(s) from the list of modules in applicable Minor programmes (only for eligible students)

Industry Orientation Programme Modules

Option 1: One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

Option 2: Two-Semester Industry Immersion Programme

- Industry Immersion Programme
- Industry Immersion Programme II

CAREER OPPORTUNITIES

DHTM graduates can look forward to pursuing these careers:

- Attractions Manager
- Business Development Manager
- Customer Experience Manager
- Leisure Travel and Tours Specialist
- Marketing and Content Creator
- Sales and Marketing Specialist (Tourism)
- Sponsorship Manager
- Sustainability Manager
- Venue Manager
- Wellness Retreat Specialist

The course takes us beyond the classroom, immersing us in Singapore's vibrant tourism scene. Through hands-on learning and travel opportunities, I've discovered the art of creating unforgettable moments and gained deep insights into what makes destinations special. It is more than academics, it is about embracing learning and making a #GreaterImpact in the tourism industry."

NUR ABIDAH FITRIE BINTE MOHAMMAD AZAM

Year 3 Student

DIPLOMA IN

Hotel & Leisure Management

Experience the future of travel with the Diploma in Hotel & Leisure Management (DHLM), where hands-on learning, global career exposure, and future-ready skills in hotel & leisure prepare you for success.

Step into the dynamic world of hospitality with the Diploma in Hotel & Leisure Management (DHLM), where classroom learning is seamlessly blended with real-world experience. Build future-ready skills in experience curation, smart technologies, sustainability and business analytics to excel in today's evolving hospitality landscape. Discover global career pathways in hotels, resorts, cruises, and airline services.

- Broaden your horizons through global exposure and industry collaborations, giving you insights into international hospitality trends and access to networking opportunities with leading organisations
- Certify your skills by participating in competitions and earning recognised industry certifications such as the Certification in Hotel Industry Analytics (CHIA), enhancing your credibility and career readiness
- Accelerate your career with the Talent Advancement Programme (TAP), where you'll gain valuable work experience through a one-year internship, expand your industry network, and boost your earning potential

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Air Travel Management
- Casual Dining Operations
- Cruise & Rail Management
- Customer Analytics
- Events and Project Management
- Financial Accounting
- Fundamentals of Customer Experience
- Guest Service Information Systems
- Guest Service Management
- Hospitality and Tourism Management
- Hospitality Business Management
- Hospitality Revenue Management
- Hotel and Leisure Management
- Marketing
- Microeconomics
- Resorts Management
- Restaurant and Culinary Management
- Sustainable Tourism Development

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

Option A: Select Elective modules totalling 12 Modular Credits (MCs) from the list of modules in applicable Minor Programmes

Option B: Select a Minor Programme

Option C: Select a CET-based Certificate programme and/or Elective module(s) from the list of modules in applicable Minor Programmes (only for eligible students)

Industry Orientation Programme Modules

Option 1: One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

Option 2: Two-Semester Industry Immersion Programme

- Industry Immersion Programme
- Industry Immersion Programme II

CAREER OPPORTUNITIES

As a DHLM graduate, you will be able to embark on careers with international hotel chains, resorts, cruises, rails, clubs and tourist attractions among many others. Launch your career in these interesting roles:

- Accommodations Manager
- Assistant Front Office Manager
- Cruise Passenger Services Manager
- Duty Manager
- F&B Operations Manager
- Guest Experience Manager
- Hospitality Business Analyst
- Leisure Facilities Manager
- Reservations Manager
- Revenue Management Analyst
- Sales and Marketing Specialist

During my time at RP, the school and lecturers provided me with invaluable support, from resources and emotional guidance to encouragement that pushed me beyond my comfort zone. With their support, I won gold at WorldSkills Singapore 2023, served as Vice President of the SOH Club, and received the Sands Hospitality Scholarship. At SOH, students are nurtured and supported to become a #GreaterMe."

YU SI EN RACHEL
2025 Graduate

DIPLOMA IN

Restaurant & Culinary Management

Savour your passion for food while gaining management skills in food service, including restaurant service, culinary, business, entrepreneurship, and technology.

The Diploma in Restaurant & Culinary Management (DRCM) equips you with theoretical knowledge and practical skills for management roles in the food service sector. Covering restaurant service, culinary arts, business, entrepreneurship, and technology, the programme prepares you for diverse hospitality sub-sectors. You will develop a strong business mindset, essential F&B operational skills and the ability to leverage technology for success.

- Develop into a future leader with comprehensive F&B education, mastering culinary, service, and business skills to gain a competitive edge in the industry
- Receive training and support to launch F&B start-ups, equipping you with the skills and confidence for entrepreneurial success
- Take part in competitions such as WorldSkills, Young Talents Escoffier to sharpen your culinary and service skills, preparing you for excellence in the F&B industry

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Customer Analytics
- Events and Project Management
- Financial Accounting
- Food and Beverage Business Management
- Fundamentals of Customer Experience
- Hospitality and Tourism Management
- Hospitality Business Management
- Hospitality Revenue Management
- Hotel and Leisure Management
- Marketing
- Microeconomics
- Pastry and Baking
- Restaurant and Culinary Management
- Restaurant and Culinary Operations
- Restaurant and Culinary Operations II
- Restaurant and Culinary Practicum
- Restaurant and Culinary Practicum II
- Wine and Beverage Management

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

Option A: Select Elective modules totalling 12 Modular Credits (MCs) from the list of modules in applicable Minor Programmes

Option B: Select a Minor Programme

Option C: Select a CET-based Certificate programme and/or Elective module(s) from the list of modules in applicable Minor programmes (only for eligible students)

Industry Orientation Programme Modules

Option 1: One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

Option 2: Two-Semester Industry Immersion Programme

- Industry Immersion Programme
- Industry Immersion Programme II

CAREER OPPORTUNITIES

As a DRCM graduate, you can pursue a variety of interesting roles within the F&B sector, working anywhere from critically acclaimed restaurants to international food chains. You will be able to join the ranks of talented restaurateurs and culinary experts as:

- Barista/Bartender/Sommelier
- Catering and Events Manager
- Chef/Culinary Specialist
- Food Services and Restaurant Manager
- Food Sustainability Specialist
- F&B Business Entrepreneur
- F&B Business Sales and Marketing Manager
- F&B Technology Specialist

“Your starting point doesn't define your success; discipline and hard work do. This course equipped me with service and culinary skills, along with a solid foundation in business management. I also gained valuable entrepreneurship skills applicable across various fields. The engaging nature of this course motivated me to excel and ultimately secure a place at a local university, opening doors to #GreaterPossibilities.”

LIM KEN CHENG
2024 Graduate

SCHOOL OF Infocomm

Fuel your passion for Information Technology at RP School of Infocomm (SOI).

Step into the fast-moving world of digital innovation, where creativity meets code and ideas become intelligent solutions. Whether you're excited by AI, cybersecurity, software development or emerging tech, SOI empowers you to uncover your technical strengths and solve real-world challenges. With six cutting-edge programmes to choose from, you'll be equipped to seize #GreaterPossibilities in the ever-expanding digital frontier.

Common ICT Programme

Diploma in Applied AI & Analytics

Diploma in Cybersecurity & Digital Forensics

Diploma in Enterprise Cloud Computing & Management

Diploma in Financial Technology

Diploma in Information Technology

Common ICT Programme

Ready to level up your tech game? Explore Information and Communications Technology (ICT) and discover your dream career.

Code your destiny with the Common ICT Programme. Gain a solid foundation and turn your tech passions into a rewarding journey. Join us to unlock your potential and make a splash in the exciting world of ICT!

- Build a solid IT foundation with hands-on projects in your first year, equipping you with essential ICT skills for any technology career path
- Explore IT domains through career guidance, industry talks, and learning journeys, discovering how technology shapes industries and uncovering exciting career pathways
- Shape your future by identifying strengths and choosing in-demand IT domains like AI, Cloud Computing, Cybersecurity, FinTech, and Software Development

2025 Graduate

DIPLOMA IN

Applied AI & Analytics

Transform the digital landscape with innovative solutions and insights using AI and Analytics.

Unleash the power of data. This course bridges raw information and transformative solutions. You will gain expertise in extracting meaning from chaos and building AI systems that revolutionise how organisations operate.

- Develop AI solutions with speed. Master Generative AI and practical deployment to build smarter, more efficient applications. Graduate ready to innovate and deliver impact
- Gain a competitive edge with industry-shaped curriculum and partnerships, accessing tools, networks, and challenges from NVIDIA, Google, AWS, and IBM to future-proof your skills
- Boost your career with industry-recognised AI certifications from NVIDIA, KNIME, and Workato, giving you a valuable head start in the AI industry

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- AI Essentials and Innovations
- AI Solution Design and Implementation
- Applied Large Language Models
- Database Systems
- Data Analytics with Gen AI
- Data Wrangling and Automation
- Deep Learning for Visual Intelligence
- Introduction to Business Process and Automation
- IT Security and Management
- Machine Learning for Predictive Analytics
- Mathematics for Computing
- Operating Systems and Networking
- Programming Fundamentals I
- Programming Fundamentals II
- Rapid App Development
- Software Application Development
- Software Development Process
- Software Testing and Analytics

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

Option A: Select Elective modules totalling 16 Modular Credits (MCs) from the list of electives below and/or the modules in applicable Minor Programmes

Option B: Select an applicable Minor Programme and an elective module of 4 MCs from the list of electives below or from the modules in applicable Minor Programmes

Option C: Select a CET-based Certificate programme and Elective module(s) from the list of electives below and/or in applicable Minor Programmes (only for eligible students)

List of Electives:

- Business Statistics
- Cloud Application Development
- Cloud Computing Essentials
- Design Thinking for Business Innovation
- DevOps Essentials
- Digital Marketing and eCommerce
- Entrepreneurship
- IT Project Management
- Marketing
- Payment Technologies
- RPA for Business
- UI/UX Design for Apps

Industry Orientation Programme Modules

Option 1: One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

Option 2: Two-Semester Industry Immersion Programme

- Industry Immersion Programme
- Industry Immersion Programme II

CAREER OPPORTUNITIES

You will be well-prepared to take on roles such as:

- AI/ML Engineer
- Associate Business Analyst
- Associate Data Engineer
- Associate Software Engineer
- Data Analyst

“RP gave me more than I expected. Through its Problem-based Learning and classroom discussions, I grew both academically and personally. The lecturers weren’t just teachers, they were mentors who patiently guided me through projects and competitions, helping me unlock new goals and confidence along the way.”

RP provided the right resources and environment to thrive. With a focused mindset, I was able to make the most of every opportunity from internships and competitions to further studies and future career planning. It was through this journey that I found my #GreaterPurpose and became a more resilient, confident version of myself.”

SWAN HTET YE YINT
2025 Graduate

DIPLOMA IN

Cybersecurity & Digital Forensics

Take the lead in the battle against digital threats by positioning yourself at the forefront of Cybersecurity.

Master the art of cyber defence and respond to cybersecurity threats. You will also navigate the complexities of cybersecurity governance and implement practices of governance to help organisations stay ahead of regulatory demands and protect sensitive information. Learn to integrate security into the software development process, ensuring robust and resilient applications.

- Master comprehensive cyber defence skills—secure IT and OT systems, analyse malware, conduct penetration tests, and lead incident responses to become a digital protector
- Boost your employability by earning certifications like CEH, PCNSA and AISP QISP, enhancing your credentials and standing out in cybersecurity
- Fast-track your cyber defence career by enlisting early with SAF and interning through the DIS-RP Cyber Work-Learn Scheme, gaining crucial cybersecurity experience defending Singapore

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Application Security
- Cloud Computing Essentials
- Computer System Security
- Database Systems
- Digital Forensics and Malware Analysis
- Ethical Hacking
- Governance, Risk & Compliance and Data Protection
- Introduction to Business Process and Automation
- IT Security and Management
- Mathematics for Computing
- Network Security
- Operating Systems and Networking

- Programming Fundamentals I
- Programming Fundamentals II
- Security Design and Architecture
- Software Application Development
- Software Development Process
- Threat Hunting and Incident Response

Elective Modules

Customise your learning pathways by selecting Elective Module(s) totalling 4 Modular Credits (MCs) from List #1

List #1

- Cloud Security
- Operational Technology Cybersecurity

AND select ONE of the following options:

Option A: Select the Elective modules totalling 12 Modular Credits (MCs) from List #2 below and/or in applicable Minor Programmes

Option B: Select a Minor Programme

Option C: Select a CET-based Certificate programme and/or Elective module(s) from List #2 below and/or modules in applicable Minor Programmes (only for eligible students)

List #2

- AI Essentials and Innovation
- Cloud Application Development
- Cloud Architecting & Administration
- DevOps Essentials
- Emerging Technologies
- IT Project Management
- Mobile App Development

Industry Orientation Programme Modules

Option 1: One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

Option 2: Two-Semester Industry Immersion Programme

- Industry Immersion Programme
- Industry Immersion Programme II

CAREER OPPORTUNITIES

You will be well-prepared to take on roles such as:

- Cloud Security Officer
- Computer Forensic Examiner
- IT Audit Officer
- IT Security Engineer
- Network Security Administrator
- Penetration Tester

RP empowered me to use my tech skills for good. Through service-learning projects, I mentored youths in the RP-CSA Youth Cyber Exploration Programme and led workshops to promote digital literacy in the community. These experiences showed me that technology isn't just about innovation, it is about impact. RP's focus on purposeful learning inspired me to grow into my #GreaterMe, someone who leads with heart and contributes meaningfully to a more digitally inclusive society."

- Industry Immersion Programme
- Industry Immersion Programme II

CAREER OPPORTUNITIES

You will be well-prepared to take on roles such as:

- Application Support Engineer
- Cloud & Data Centre Operation Engineer
- DevOps/SysOps Engineer
- Infrastructure Engineer
- Operations Centre Support Engineer
- Systems/Infrastructure Support Engineer

My time at RP was more than just education. It was a journey to becoming the greater me. A spark in Polytechnic Foundation Programme ignited my passion for IT, and coding challenges taught me to think out of the box. With hands-on projects and leadership opportunities, I grew far beyond the classroom. I entered as a quiet student, but I graduated confident, capable, and ready for what's next, all thanks to the transformative journey at RP."

Information Technology

Transform your ideas into digital reality!

Shape the digital landscape with the Diploma in Information Technology, a comprehensive programme that equips you with in-demand skills in software development, IT solutions management and business transformation. With specialised majors aligned to industry demands, you'll be well-prepared for a wide range of roles in software development and IT project management.

- Customise your IT journey. Choose from three in-demand majors: Full Stack Development, IT Solutions Management, or Business Digitalisation. Build robust web and mobile apps, manage enterprise systems, or drive digital transformation. This diploma equips you with the core and specialised skills demanded across industries
- Design tech with a human touch. Go beyond coding to craft meaningful user experiences. Learn UI/UX, interaction design, and prototyping to design intuitive, user-friendly digital interfaces for apps, websites, and systems. Create not just functional, but inclusive tech solutions with a human-centred approach
- Use your digital skills to empower seniors, help local businesses go digital, teach cyber wellness, and lead real community projects through service-learning and leadership programmes

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- AI Essentials and Innovations
- Database Systems
- Introduction to Business Processes and Automation
- IT Security and Management
- Mathematics for Computing
- Operating Systems and Networking
- Programming Fundamentals I
- Programming Fundamentals II
- Software Application Development
- Software Development Process

Major Modules

Major in Full Stack Development

- Data Intelligence and Visualisation
- DevOps Essentials
- Cloud Application Development
- Fundamentals of Design
- Mobile App Development
- Portfolio Development
- Software Testing and Analytics
- UI/UX Design for Apps

Major in IT Solutions Management

- Data Intelligence and Visualisation
- Fundamentals of Design
- Governance, Risk & Compliance and Data Protection
- IT Project Management
- IT Service and AI Operations
- RPA for Business
- Software Testing and Analytics
- UI/UX Design for Apps

Major in Business Digitalisation

- Data Analytics with GenAI
- Digital Business Strategies
- Digital Marketing and eCommerce
- Digital Storefront Creation
- Fundamentals of Design
- RPA for Business
- Software Testing and Analytics
- UI/UX Design for Apps

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Personal Growth I)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Biopsychosocial Aspects of Ageing
- Inclusive Physical Activity
- Introduction to Experiential Education
- Physical Activities for Youth and Adults

You will opt for one of the following **diploma/clusters at the end of semester 1:**

- Integrated Community Care (R45)
- Outdoor Education (R33)
- Sport Coaching (R49)
- Sport & Exercise Science (R26)
- Sports & Health (R43)
- *Health Cluster*
- *Sports Cluster*

Semester 2

If you choose to enter the **Health Cluster**, you will complete the following modules:

- Data Analytics for Population Health
- Health Promotion
- Introduction to Community Care

You will opt for one of the following **diplomas at the end of semester 2:**

- Integrated Community Care (R45)
- Sports & Health (R43)

If you choose to enter the **Sports Cluster**, you will complete the following modules:

- Foundations of Kinesiology
- Introduction to Sport Coaching
- Sports and Exercise Nutrition
- Sports and Exercise Psychology

You will opt for one of the following **diplomas at the end of semester 2:**

- Sport Coaching (R49)
- Sport & Exercise Science (R26)

The Common Sports & Health Programme was the perfect starting line for me. It provided the guidance and insights I needed to find my passion and discover my place in the Diploma in Sports and Health. Thanks to this programme, I'm now on a clear path to turn my love for sports into a meaningful career."

**DANIAL BIN
MOHAMED NAZIM**
Year 2 Student

DIPLOMA IN

Integrated Community Care

Support older adults and families through holistic, real-world community care in a course designed for those passionate about making a difference.

The Diploma in Integrated Community Care (DICC) equips students with the essential knowledge and skills to deliver holistic, patient-centred care across diverse community settings. This curriculum is endorsed by the Agency for Integrated Care (AIC), enabling students to pursue employment as Community Care Executives upon graduation.

- Build practical skills in needs assessment, volunteer management and healthcare operations, equipping you to thrive and lead in the community care sector
- Earn the Silver Generation Ambassador certification by AIC in Year 2, empowering you to support Singapore's ageing population as a trusted community ambassador
- Gain real-world experience and apply your skills meaningfully with a 20-week internship with our industry partners like Kwong Wai Shiu Hospital, St Luke's Eldercare, Active Ageing Centres, and Polyclinics

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Biological Systems
- Biopsychosocial Aspects of Ageing
- Case Management
- Chronic Disease Management
- Community and Social Care
- Data Analytics for Population Health
- Financial Statistics in Healthcare
- Healthcare Operations Management
- Health Ethics and Law

- Health Promotion
- Health Psychology and Sociology of Illness and Health
- Inclusive Physical Activity
- Integrated Community Care
- Introduction to Community Care
- Introduction to Experiential Education
- Needs Assessment
- Physical Activities for Youth and Adults
- Quality Management in Healthcare

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

Option A: Select Elective Modules totalling 12 Modular Credits (MCs) from the List of Electives below and/or from the list of modules in applicable Minor Programmes

Option B: Select a Minor Programme

Option C: Select a CET-based Certificate programme and/or Elective Module(s) from the List of Electives below or from the list of modules in applicable Minor programmes (only for eligible students)

List of Electives:

- Foundations of Kinesiology
- Introduction to Sports Coaching
- Sports and Exercise Nutrition
- Sports and Exercise Psychology

Industry Orientation Programme Modules

One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

CAREER OPPORTUNITIES

As a graduate of the Diploma in Community Care (DICC), you will be well-equipped to pursue a meaningful career across various sectors within the healthcare ecosystem, including:

Acute Care: Hospitals and specialty centres

Community Care: Active ageing centres, community hospitals, hospices, and nursing homes

Primary Care: General practitioner clinics, dental clinics, and polyclinics

Possible roles you can explore include:

- Case Management Assistant
- Community Care Executive
- Healthcare Data Analysis Associate
- Operations Management Officer
- Pharmacy Technician
- Senior Community Care Associate
- Senior Patient Care Navigator
- Senior Patient Service Associate
- Quality Management Assistant
- Volunteer Coordinator

This diploma brought to light the plight of social isolation among seniors. For my Case Management module, I volunteered with TOUCH Home Care to deliver meals to elderly individuals living alone. I also served as part of a medical escort team during my RP internship. These experiences deepened my commitment to making a #GreaterImpact in the lives of seniors, and I'm honoured to have been offered a place in NUS Nursing, where I hope to further my passion to support our ageing population. I envision a future where all seniors feel valued, connected, and actively engaged across generations."

SEMPIO ALYSSA MARIE SAYO
2025 Graduate

DIPLOMA IN

Outdoor Education

Transform your passion for the outdoors into a fulfilling career with Singapore's only diploma that develops experiential educators.

The Diploma in Outdoor Education (DOE) develops people-centred professionals for outdoor education, special needs and youth sectors. You will learn essential teaching skills including programme design, instruction, and facilitation. Additionally, you will develop environmental-related skills such as landscape interpretation, environmental studies, and biodiversity; as well as people skills like youth development and outdoor leadership.

- Develop interdisciplinary skills in teaching, environment, and people with Singapore's only diploma in outdoor education, gaining expertise through experiential learning and field trips
- Acquire industry certifications in abseiling, climbing, kayaking, orienteering, and risk management, enhancing your skills and employability in outdoor education and adventure sectors
- Gain meaningful work experience through a 20-week internship with Boys' Town, MOE Outdoor Centres, NParks, Outward Bound Taiwan/Vietnam, or a 36-week stint with Outward Bound Singapore

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Biological Systems
- Biopsychosocial Aspects of Ageing
- Exercise Programming and Assessment
- Foundations of Kinesiology
- Human Motor Control and Development
- Inclusive Physical Activity
- Injury Prevention and Management
- Introduction to Experiential Education

- Introduction to Sport Coaching
- Musculoskeletal Anatomy and Kinesiology
- Physical Activities for Youth and Adults
- Sports and Exercise Biomechanics
- Sports and Exercise Nutrition
- Sports and Exercise Physiology
- Sports and Exercise Prescription
- Sports and Exercise Psychology
- Sports Performance Analytics I
- Sports Performance Analytics II

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

Option A: Select Elective Modules totalling 12 Modular Credits (MCs) from the List of Electives below and/or from the list of modules in applicable Minor Programmes

Option B: Select a Minor Programme

Option C: Select a CET-based Certificate programme and/or Elective Module(s) from the List of Electives below or from the list of modules in applicable Minor programmes (only for eligible students)

List of Electives:

- Data Analytics for Population Health
- Health Promotion
- Introduction to Community Care

Industry Orientation Programme Modules

One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

CAREER OPPORTUNITIES

You can pursue a career in the following sectors:

- Fitness and Wellness
- Healthcare
- Research Support
- Education
- Sports Academies
- Sports Organisations

You can explore potential positions such as:

- Coach
- Fitness Instructor/Trainer
- High Performance Executive
- Physical Education Teacher
- Sports Development Officer
- Sports Educator
- Therapy Assistant

There is a strong alignment between the Diploma in Sport & Exercise Science (DSES) and physiotherapy. Many concepts introduced in DSES were revisited in greater depth during my foundation modules in physiotherapy, giving me a valuable head start compared to peers from junior colleges. Choosing DSES was intentional, as I had a clear interest in pursuing physiotherapy and the diploma provided a solid foundation to work towards that goal while helping me discover my #GreaterPurpose to support others in their journey to recovery and better movement."

2023 Graduate

DIPLOMA IN

Sports & Health

Become a game-changer in Sports Management and Health Coaching

The Diploma in Sports & Health will equip you with the essential knowledge and skills in the Sports Management and Health Coaching industry. As you progress through this course, you will be empowered to choose a Major in either Sports Management or Health Coaching. By the time you graduate, you will emerge as a sports and/or health advocate, ready to contribute to a healthier Singapore.

- Choose tailored pathways in Sports Management or Health Coaching, aligning your studies with your passion and career goals
- Develop skills to conceptualise, market, and execute sports events, while acquiring expertise in sports facility management and promoting physical activity nationwide with a Sports Management Major
- Gain real-world experience with a 20-week internship at ActiveSG, Health Promotion Board, National Healthcare Group, or St Luke's Eldercare, to strengthen your career prospects

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Future-Ready II)
- Designing Your Life (Personal Growth I)
- Designing Your Life (Personal Growth II)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Biopsychosocial Aspects of Ageing
- Data Analytics for Population Health
- Exercise Programming and Assessment
- Foundations of Kinesiology
- Health Promotion
- Inclusive Physical Activity
- Introduction to Community Care
- Introduction to Experiential Education
- Introduction to Sport Coaching
- Physical Activities for Youth and Adults

Major Modules

Major in Health Coaching

- Behaviour Change
- Biological Systems
- Health Management across Lifespan
- Health Psychology
- Introduction to Counselling and Communication
- Marketing
- Nutrition
- Nutrition Care Process

Major in Sports Management

- Event Design and Experience
- Marketing
- Sport Facilities Management

- Sports and Leisure Related Law
- Sports Business
- Sports Events Management
- Sports Policies
- Tourism and Hospitality in the Digital World

Elective Modules

Customise your learning pathways by selecting **ONE** of the following options:

Option A: Select Elective Modules totalling 12 Modular Credits (MCs) from the List of Electives below and/or from the list of modules in applicable Minor Programmes

Option B: Select a Minor Programme

Option C: Select a CET-based Certificate programme and/or Elective Module(s) from the List of Electives below or from the list of modules in applicable Minor programmes (only for eligible students)

List of Electives:

(Only applicable for students transferring from the Sports Cluster)

- Sports and Exercise Nutrition
- Sports and Exercise Psychology

Industry Orientation Programme Modules

One-Semester Industry Immersion Programme

- Project

And select one module from the list below:

- Corporate Innovation Immersion Programme
- Entrepreneurial Immersion Programme
- Industry Immersion Programme

CAREER OPPORTUNITIES

You can pursue a career in the following industries:

Major in Sports Management:

- Community sports
- Fitness
- National Sports Associations (NSAs)
- Sports facilities
- Sports merchandise

Major in Health Coaching:

- Community care — active ageing centres, community hospitals, and nursing homes
- Corporate wellness — human resources
- Fitness
- Healthcare — population health

You can explore potential positions such as:

Major in Sports Management:

- Community Sports Executive
- Fitness Instructor/Trainer
- Sports Administrator
- Sports Event/Facility Manager
- Sports Merchandising Manager

Major in Health Coaching:

- Care Coordinator
- Corporate Wellness Executive
- Fitness Coach
- Health & Wellness Coach
- Health Promotion Programme Executive
- Well-being Coordinator

DSH empowered me to get involved in health promotion projects and campaigns that strengthened my project management and communication skills. This fuelled my passion for people-oriented work and opened up #GreaterPossibilities for me to pursue a degree and a career focused on improving community well-being."

SCHOOL OF

Technology for Arts, Media and Design

Unleash your creativity at RP School of Technology for Arts, Media and Design (STA) and step boldly into the creative industries.

At STA, learning happens through hands-on practice, collaboration and experimentation. Our interdisciplinary approach sharpens your talents and fuels your imagination while helping you master cutting-edge technology in our state-of-the-art facilities. Build a standout portfolio, gain real-world experience through diverse internships and graduate ready to make your mark with #GreaterPurpose in the arts, media and design landscape.

- Common Arts, Media & Design Programme
- Diploma in Arts & Entertainment Production Management

- Diploma in Design
- Diploma in Digital Content Creation
- Diploma in Sonic Arts

Common Arts, Media & Design Programme

Discover your passion in arts, media and design.
Explore these fields before choosing your specialisation
and let your talent shine!

Dream of a vibrant career in the dynamic creative industries but unsure which field to specialise in? The Common Arts, Media & Design Programme offers a cross-disciplinary curriculum that immerses you in the creative sector. Gain hands-on experience across various creative disciplines to uncover your interests and strengths!

- Discover your interests and explore endless possibilities within the creative industries
- Gain insights into different Arts, Media and Design specialisations and careers
- Choose from four STA diplomas, including one (Diploma in Design) that offers three specialisation majors to tailor your studies

WHAT YOU WILL LEARN

General Modules

- Critical Thinking and Problem Solving Skills
- Designing Your Impact
- Designing Your Life (Future-Ready I)
- Designing Your Life (Personal Growth I)
- Effective Workplace Communication
- Innovation and Practice
- Singapore, the World and I

Discipline Modules

- Art of Story
- Arts and Technology
- Creative Studio
- Design for Interactive Media
- Introduction to User Experience
- Sound Design

Elective Modules

In the second semester, you must choose two electives from the list below:

List of Electives:

- Design Research for UX
- Drawing and Digital Illustration
- Game Design and Gamification
- Music Theory for Production
- Technical Theatre
- Visual Storytelling for Content Creators

You will opt for one of the following **diplomas at the end of semester 2:**

- Arts & Entertainment Production Management (R25)
- Design (R67)
- Digital Content Creation (R19)
- Sonic Arts (R24)

“ The CAP Programme was a great opportunity for me to explore the different potential studies I could go into and reaffirm my choice of career for the future. I appreciate how the extra career guidance activities really helped to inform my choices.”

WANG WEN TING
Year 2 Student

DIPLOMA IN

Arts & Entertainment Production Management

Embark on a thrilling journey into the world of Arts & Entertainment, shaping the future of creative industries.

Gain a strong foundation in arts administration, theatre, and entertainment design enhanced by innovative production techniques. With a global perspective, you will develop essential skills to thrive in a dynamic industry.
