TP Cares

A particularly memorable moment was having the opportunity to speak with a parent, who shared how their child viewed us as role models. Hearing that was incredibly humbling and fulfilling, as it reminded us that our presence meant more than simply conducting activities.

"Through OCP, we witnessed how activities that seemed so small to us could bring immense joy, excitement, and learning opportunities to the children."

We had become trusted friends and mentors in the children's eyes.

SeeDS OF GOOD

What keeps us going today is the impact that service creates. Not only for the communities we work with, but also for the people who serve.

"Many aspects of the project were built from scratch, involving countless rounds of trial and error. There were moments of disappointment and uncertainty when things did not go according to plan."

If there is one message we would like to share, it is that having a choice is a privilege. Take the first step and recognise that even the smallest action can create a ripple effect.
