# Bags of Joy

It was heartwarming to see the students give back to the community by donating some of their household items to the lower-income families. During the distribution, I had the opportunity to interact with the beneficiaries and learnt about the struggles they face, which reminded me to be more grateful for what I have.

Looking at the smile on the beneficiaries' faces when they receive the goodie bag, I was inspired to continue contributing to the community and spread this joy with more people in need.
