PERSON OF THE MONTH

Danial K.
TPLA's Ex-President

1. How would you define being a successful leader?
Success as a leader is about empowering others, positively impacting them, and enabling personal growth while serving others to the best of our abilities.

2. What is something you wish you knew before assuming a leadership role?
Take time for careful consideration in leadership roles. Focus on making informed choices, even if it means exceeding deadlines, for better long-term outcomes.

3. How do you motivate yourself in tough times?
For me, the impact I could potentially leave on others motivated me to press on. Prioritise quality over quantity to stay motivated and resilient. For example, we did not reach our target number of sign-ups for the LEADership Forum 2022. However, the participants present gained many valuable insights, making the overall experience extremely rewarding.
