We hope everyone had a marvellous March! Now's the best time to recharge before AY 23/24!

Keep a lookout for what April has in store for us!

CORE : LEAD HEART & SUMMIT

"We gained a deeper understanding about dementia and those who suffer from the disorder. Secondly, we gained exposure to the different neighbourhood put into place for our senior citizens, allowing us to learn more about what singapore currently does and how we may improve it."

Thien Yu Xuan
Year 2
Pharmaceutical Science

"One of the key takeaways is the importance of adapting to changing circumstances, such as how the aviation industry has adapted to the difficult pandemic"

Mohamed Azfar Abdul Raheem
Year 3
Big Data & Analytics

LEAD GOES OVERSEAS!

Overseas Experience Programme (Seoul, South Korea)

Overseas Community Leadership Projects (Siem Reap, Cambodia)

Overseas Adventure Expedition (Mt Ophir, Malaysia)

Arts Leadership Overseas Camp (Melbourne, Australia)

Over 106 LEAD students embarked on 4 different countries (South Korea, Malaysia, Cambodia & Australia) this month. Students got to immersed themselves in the vibrant art scenes, experiencing new culture, involved in community work and even conquering a mountain peak!

"Mount Ophir was eye-opening due to the many challenges I faced, which I overcame by delegating responsibilities, planning, and leadership. Despite some setbacks, all of our members summited and returned down the mountain safely. With the experience and skills I've gained through this journey, I hope to pursue further accomplishment in the LEAD Programme and Adventure Club."

Marco Sean Chow
Year 2
Information Technology

PERSON OF THE MONTH

Andrew Yeo
TPLA's
Ex-Vice President

Andrew's Useful Advice for Future Student Leaders

- ***Have a desired end state when leading your team,*** so that your group members will be able to contribute more effectively.
- ***Play to your team members' strengths*** and help them whenever you can!
- ***Start early*** and remember to work smart for the maximum results!

Andrew's Best Leadership Practice

"Keep things simple when leading. I do this by brainstorming and organising my ideas with mind maps. It refines my train of thought, helps me generate ideas with clear objectives, and tracks the team's progress. This will also allow us to revisit any previous ideas."

LEAD Graduation 2023

Congratulation to our graduating LEAD students! Hope you had a wonderful time in Temasek LEAD!

We will be sending more details to you soon! Do look out for it!
