QN: How do you mitigate the impact of your weakness in your leadership role?

🗣️: Firstly, acknowledge my weaknesses and seek feedback from peers. Then, delegate tasks to team members who excel in areas I am weak in.

QN: ***One piece of advice to aspiring student leaders who are hesitant to take on leadership roles?***

🗣️: Embrace every opportunity for growth and learning. Don't be afraid to step out of your comfort zone. Taking on a new role offers valuable lessons and personal development opportunities. Have trust in your abilities and remember that every challenge you face will ultimately contribute to our growth as a leader.
