LEAD Core: Summit (11/3/26)

187 LEAD students participated in an engaging panel discussion on navigating ethical challenges and thriving in a beyond-AI world, where they explored how technology shapes society and the importance of ethical decision-making. This was followed by breakout sessions that allowed students to exchange perspectives, debate real-world dilemmas, and deepen their understanding of making responsible choices in an AI-driven world.

LEAD Core: Heart (9-10/3/26 & 12-13/3/26)

143 LEAD students took part in a two-day programme that explored leadership through empathy and understanding of the palliative care sector. Through interactive discussions, hands-on activities, and team challenges, students gained insights into dignity, ageing, and meaningful care while developing people-centred solutions. The experience strengthened their empathy, leadership, and problem-solving skills, inspiring a stronger commitment to compassionate service.

LEAD Elective: Overseas Experience Programme (Guangzhou & Shenzhen) (22-29/3/26)

22 LEAD students participated in an Overseas Experience Programme to Guangzhou and Shenzhen, where they gained exposure to different industries, cultures, and perspectives. Through a mix of site visits, discussions, and collaborative activities, students broadened their global outlook and developed a deeper appreciation of innovation and leadership in an international context.

LEAD Elective: Learning Journey (NUS Residential Colleges) (25/3/26)

29 LEAD students visited National University of Singapore University Town to explore residential college life across RC4, CAPT, and Tembusu College, gaining insights into how learning, community engagement, and student activities are integrated within the campus environment. A highlight of the visit was a sharing session with three Temasek Polytechnic alumni, including the 2025 VaLEADictorian, who reflected on their transition to university, the challenges of adapting to independent learning, and the opportunities for personal and leadership development at NUS.

LEAD Excel: Outward Bound (Hong Kong) (28/3/26 - 5/4/26)

24 LEAD students participated in the Outward Bound Hong Kong programme, where they engaged in a series of challenging outdoor activities designed to build resilience, teamwork, and leadership. Through immersive land and sea expeditions, students stepped out of their comfort zones, strengthened their character, and developed a deeper sense of collaboration and perseverance.

LEAD Core: Graduation (30/4/26)

A total of 392 LEAD students from the Class of 2026 officially graduated from the Temasek LEAD programme, marking a significant milestone in their leadership journey at Temasek Polytechnic. The graduation ceremony was made even more meaningful with the presence of LEAD alumni, who returned to celebrate alongside the graduating cohort and reconnect with the LEAD community. Filled with laughter, reflections, and memorable moments, the event celebrated not only the students' achievements and growth over the years, but also the friendships, experiences, and shared spirit of leadership that continue to unite the LEAD family across different batches.
