LEADership Forum 2022:

Overcoming Adversity

"Being a leader, you must be confident in what you do and trust that you can execute it well. The starting mindset is really important. If you don't believe that you can do it, it will affect how you lead and execute as well as people' trust in your ability."

- Lee Si En Jace, Year 2 LEAD student

"Ideal leadership qualities will always change depending on the situation."

- Jonathan Wee Jia Sheng, Year 3 Student

GEP: London & Bristol

After 2 years of travel restrictions, some of our TP LEAD students got the chance to embark in a Global Experience Programme (GEP) to London & Bristol University. It was a really thrilling & eye-opening experience for all the students who were there.

"The Global Experience Programme to the UK has been insightful! Being able to learn more about a different political system and environment in the country itself has made the experience more meaningful."

~ Muhammad Danial B Mohamed K
President of TPLA

PERSON OF THE MONTH

Carol Chan
LEAD President
AY21/22

<u>Important advices to keep close to you:</u>

- ***Do not limit yourself***: you never know how much you can grow!
- ***Giving back where you can***: contributing to the community is a privilege that encourages self-growth!
- ***Be humble***: give yourself the chance to learn from everything and everyone!
- ***Be thick-skinned***: acknowledge that failure and challenges are mere stepping stones and move on!

"You need to help yourself by not further limiting yourself, and really have the courage to try, even when you're scared and/or uncertain"

Quote of the month

One issue that was spoken of during the LEAD Forum were the challenges faced by leaders. Do not give up and remember as Franklin D. Roosevelt once said:

"A smooth sea never made a skilled sailor."
